WESTCHESTER RAPID TRANSIT. A COMPANY FORMED-SUBSCRIPTION BOOKS FOR

The final meeting of the Westchester County Rapid Transit Commissioners was held at the County Treasurer's office at White Plains yesterday. The members present were David Cromwell, Mathias Banta and David Quackenbush. Routes previously considered and resolutions adopted were formally acted upon and incorporated into articles of association as required by law. The road will be about eight miles in length, and the capital stock of the company was fixed at \$250,000, in shares of \$100, 4 per cent to be paid down. The road will begin where the present partly completed Honsatonic Road meets the New-Haven Road, at a point about half way between Mount Vernon and Pelbamville. STOCK TO BE OPENED MAY 29.

about half way between Mount Vernon and Pelhamville.

From this point it will run to the junction of the continuation of Third-st. (Mount Vernon) with the Eastchester road, striking the latter about 200 feet north of Fourth-ave. (Mount Vernon), and running in a straight line parallel with Fourth-st. through the village. It continues on this line until within a few rods of the White Plains road near Washingtonville. Here it turns to the south, and runs in a straight line to the junction of the Kings-Bridge and White Plains road. From this point it continues south, passing to the east of Williams's Bridge, and thence goes on until striking the Broux River at Bronxdale, where the road of the New-York Commissioners will meet it. The road will be a surface road except where it passes through Mount Vernon, and where it crosses other roads. In Mount Vernon it is to be a depressed road, and nowhere on its line will it run over, under, or on any street except to cross it. Over the cut made for the road through Mount Vernon, bridges ou a level with the roadway and sidewalks will be built on each avenue and the sides of the embankment will be soldeds. Where the roads crosses the junction of Third-st, with the Eastchester Road and at other crossings it will pass under the roads.

the road crosses the junction of Third'st, with the Eastchester Road and at other crossings it will pass under the roads.

The date for opening the subscription books was named by the Commission yesterday for May 29, at 10 a. m., in the rooms of the East Chester Savings Bank, at Mount Vernon. The treasurer of the Commission, David Cromwell, and Mr. Wood, clerk of the Board, were instructed to open the books to the public on the above date. It was stated by Mr. Cromwell that several residents of Mount Vernon by their inquiries about the road, and their interest in it, had led him to infer that they would become immediate subscribers, more likely subscribe \$25,000 each than a less amount. As an extension to the rapid transit road in Westchester County, it is expected that the New-York and Housatonic Road will be of use. It was sold a few weeks ago under foreclosure, and steps are now being taken to organize a new company for its management. This road, already partly graded its entire length, runs from Mount Vernon in a northeasterly direction to White Plains, thence through Bedford and Poundridge to North Salem, where it leaves the county and runs directly to Danbury, Conn.

STOPPING AN ELOPEMENT WITH A CANE.

John Z. Hyde was arraigned before Justice Walsh in Brooklyn yesterday to answer to a charge of assault preferred by Pierce W. Jackson. The complainant, however, failed to appear, and the case was dismissed. According to Mr. Hyde's statement he is in business in this city and lives in Brooklyn. Jackson was a clerk in his employ, and he had in some way made the acquaintance of Hyde's daughter, age eighteen, without her parents' consent. Mr. Hyde became aware of this one evening when he met his daughter and Jackson in Broadway, in this city. They said they had been to a theatre, and it was found that Miss Hyde had deceived her mother as to where she was going that evening. Hyde determined to break off Jackson's intimacy with his daughter, and his first impulse was to discharge Jackson. The young man pleaded hard to be retained, and promised not to see or speak to Miss Hyde again. Subsequently Hyde was informed by another of his clerks, named Wells, who was intimate with Jackson, that Jackson and Miss Hyde had p'annel an clopement for Tuesday evening, when they were to meet at Clinton and Amitysts. Brooklyn. Hyde followed his daughter when she went to the appointed place, and gave Jackson a severe canney. Hence Jackson's complaint of assault, to which Hyde said he was willing to plead guilty. A MISSING BROKER'S BODY FOUND.

A MISSING BROKER'S BODY FOUND.

A body which was found at the foot of Congressst. Brooklyn, last evening, was identified as that of
Max A. Plaat, the Wall-st. broker, who disappeared on April 26. His home was at No. 242
Warren-st. Brooklyn, and his office at No. 38 Exchange-place, this city. Mr. Plaat was formerly in
the employ of L. von Hoffman & Co. In 1872 he
starled in business on his own account and was
very successful. He met with reverses in the panic
of 1873, but recovered and was believed to have
amassed a considerable fortune. About a week before he disappeared he took a quantity of laudanum
with suicidal intent, but recovered from its
effects. A letter was then found in his
pocket setting forth his intention to take
his life and bidding iarewell to his wife and two
children. On April 26, Mr. Plaat left his office at
3:30 p. m., and went directly home. In the evening he kissed his wife and went out, and was not
seen afterward by his family. He visited a saloon
not far from his house, and from there the police
traced him to the foot of living-st. A few days
ago it was thought that he had sailed for Europe.
Mr. Plaat was a member of the Stock Exchange.
The body was found by a boatman named Michael
Haley, of No. 17 New-Bowery. It was taken to an
undertaker's office in Hicks-st.

TWO CLERKS CUT THEIR OWN

TWO CLERKS CUI THEIR OWN THROATS.

A German named Albert Feste, living with his family upon the second floor at No. 160 West Broadway, attempted suicide yesterday morning by cutting his throat with a razor and afterward severing an artery in the left wrist. He is thirty-five years of age, and is employed in a store in Washington-st. He has been drinking to excess of late. He was taken to Chambers Street Hospital, and may recover. No cause save despondency was known for his attempt to kill himself.

In the case of Abraham Elkin, the second clerk who cut his throat yesterday, insanity was the cause. Mr. Elkin is thirty-three years old and in the employ of A. Waldman, a dry goods dealer at No. 1,098 Third-ave. He boarded in the Waldman family. His erratic manners and constant solicitude about his trunk aroused the suspicion of Mr. Waldman, and he demanded that the trunk be opened in his presence. The insult drove the clerk crazy, and yesterday at noon he went to his room and cut his throat with a razor. He was removed to Roosevelt Hospital. In a lucid moment he explained that he had spent his money and some of his wife's, and did not care to live longer.

TWENTY-NINE WITNESSES OF A MURDER.

The trial of the five members of the "Smoky Hollow gang," Burke, Hanlon, Herron and Joseph and Patrick Mungerford, on the charge of causing the death of Officer Stone, was continued yesterday in the Kings County Court of Oyer and Terminer. Twenty-nine witnesses were examined, and the testimony for the prosecution was practically closed. Most of the witnesses saw the struggle on February 29 between Officer Stone and Joseph Mungerford, at Columbia and Pacific-sts. The officer attempted to arrest Mungerford. The latter resisted and the officer struck-him on the head two or three times with his club. The men then clinched and fell to the pavement, Mungerford struck the officer and jumped on him, and a stone was thrown which struck the officer on the head. The stone was shown in Court. It is about twice as large as a man's fist, and is rough and jagged.

The rust imporiant witness was Mrs. Ella Quinn. TWENTY-NINE WITNESSES OF A MURDER.

MISSING FROM A SOUND STEAMBOAT.

Two men who were supposed to be passengers on the steambett St. Lawrence yesterday from New-London were reported to the police as missing. Their names were William Hoben and Louis Champagne. Both came from Newport. New-Hampshire. In New-London they met three friends, Charles Daily, James Rogers and James Simington, who were also going to New-York. They were together, drinking, till the vessel started, when Daily says that he went to bed, giving to Hoben his watch, money and baggaze checks for safe-keeping. When the steamboat reached port this morning Hoben and Champagne were missing, and their three friends insisted that they must have fallen overboard during the night. As all five were under the influence of liquor, and no one of the ship's crew remembers seeing the two missing men on board, it is considered probable that they remained behind in New-London. SHOT IN SEEKING REVENGE.

William Keheler, age twenty-six years, of 15½ Leonard-st., was shot yesterday afternoon by John Lane, a youth of nineteen years, in front of the latter's home, No. 18 Baxter-st. Keheler, who has been in prison, recently quarrelled with a young man named Mack, who board's with Lane's mother, and was worsted. In revenge he procured a warrant for Mack's arrest and Mrs. Lane oftered to give bail. Keheler threatened to "get square" with Mrs. Lane by beating her son, Yesterday young Lane stood talking to a friend named O'Rourke when William Keheler and his brother Michael assaulted them, Michael struck Lane and William drew a pistol. In self-defence, it is alleged, Lane then drew a revolver and fired. The bullet struck William Keheler in the abdomen. He was sent to St. Vincent's Hospital, and his life is in danger. Lane escaped. DEMANDS OF WORKINGMEN. The committee of the striking capmakers continued in session at No. 108 Allen-st. yesterday. About 750 capmakers are still on strike. The agitation among the eigarmakers is kept up. The citarmakers fand bunchmakers employed by Kelly & Co., in Reade-st., are on strike for an advance

of \$1 per 1,000 on cigars and 25 cents per 1,000 for bunches. Those in the employ of Holzmann & Deutschberger, in Attorney-st, who struck for 50 cents more per 1,000, vesterday agreed to accept \$5 cents more per 1,000. The carpenters and 35 cents more per 1,000, resterdy agreed to accept 35 cents more per 1,000. The carpenters and framers claim that their success is nearly complete. Another firm yesterday granted the advance demanded.

RESULTS OF THE PATERSON RIOT.

William Dalzell, the man who shot and killed John Joseph Van Heuten on Sunday morning, May 2, was arraigned before Judge Dixon at Paterson yesterday, on an indictment charging him with manslaughter. Dalzell pleaded not guilty, and bail was fixed at \$10,000. A motion for a foreign jury to try the case in Passaic County will be argued on May 22. Dalzell was taken back to jail. He expects to secure bull to-day.

Edward Van Orden was arraigned in the same court on a charge of having engaged in the riot which followed the shooting of Van Houten. It is alleged that he was an intimate friend of Van Houter's, and that he was very active in the demonstrations against Dalzell. Van Orden pleaded not guilty, and was remanded to the County Jail in default of \$2,500 bail. RESULTS OF THE PATERSON RIOT.

POISONING HIS MOTHER'S COWS.

James Doyle, a milkman, age twenty-two, of No. 424 Humboldt-st., Brooklyn, was before Justice Kieh, yesterday, on the charge of poisoning sixteen cows belonging to his mother, Mrs. Resanna Doyle, of Kingsland-ave, and Park-st. James lived with his mother until a few weeks ago, when he quarrelled with his older brother and left the house. It is alleged that he poisoned the cows in revenge. What is known as London lead, a poison, was mixed with their feed Tuesday night. The cows became siek on Wednesday, and up to yesterday twelve of them had died. George Kennedy, of No. 73 First-st., was arrested as being Doyle's accompilee. They both protested their innocence yesterday, and asked for an immediate examination. They were held in bonds to appear next Wednesday.

THE WARREN COURT OF INQUIRY.

BRIDGE-BUILDING BEFORE THE BATTLE. TESTIMONY OF MAJOR W. H. H. BENYAURD-WHAT HE SAW AND DID BEFORE FIVE FORKS.

At the opening of the Warren Court of Inquiry, at Governor's Island, yesterday morning, Major W. H. H. Banyaurd, Corps of Engineers, at present sta-tioned at Memphis, Tenn., was call d to the stand. In March, 1865, he ranked as Leutenant and served on the staff of General George G. Meade. On March 28, he was temporarily detached to serve with General Warren. In reply to questions, Major Benyaurd testified that on the night of March 31 he was awakened from sleep and sent by General Warren, with Captain Wadsworth, to see about a bridge over the Gravelly Run at the Boydton plank road. He described at length the condition of the stream, and told about building the bridge. Major Benyaurd also testified about his movements on April 1, in connection with the management of the forces.

"Will you say," asked Mr. Stickney, "whether or not in your opinion, General Ayres's march up and the for nation were made as quickly as possible i"

Major Gardner objected to the question, on the grounds that it was proper only to place facts before the Court for them to form an opinion as experts. Mr. Stickney replied that it was no longer possible to reproduce exactly the condition of affairs as then existing, and that the only way of arriving at the truth was by getting the opinions of competent persons. The Court decided the question to be proper, and the witness said the movement was executed as quickly as it could have been done-considering the condition of the roads and the condition of the men, who had marched all night and fought in the previous two days. Major Benyaurd said that General Warren busied himself in preparing for the coming engagement, and testified to General Warren's position and the movements of troops su warren, he continued, was in the rear of the right of Ayres's division until it crossed the White Oak road and Ayres's division until recossed the winess to General Winthrop, to inform him how to face his brigade to keep the sun as nearly as possible in his face. Winthrop's brigade then went in on Ayres's extreme left. Benyaurd went back to General Warren, and in a short while were sent after General Crawford.

"How long after Crawford crossed the White Oak road was it you were sent after him ?"

It might have been half an " What was the character of the country there 1"

" I should call it woody, with some clearings." " How long did it take you to get from General Warren "About haif an hour."

"About haif an hour."

"About haif an hour."

"A mile or a mile and a half."

"You went as quickly as you could !"

"Yes."

"Then it took you, a single mounted man, half an hour to riue one mile in that locality."

"Yes."

"Yes."

"Then it took you, a single mounted man, half an hour to rice one mile in that locality."

"Yes."

Major Benyaurd was cross-examined by Major Gardner, and questioned in minute detail respecting the situation of General Warren's headquarters on March 31, and the time it took for him to build the bridge. In reply to further questioning be said he was not prepared to say that Gravelly Run was not prepared to say that Gravelly Run was not fordable at the old bridge; that he saw no waron tracks leading down to it from the road; that on either side of the causeway was a ditch filled with water; that he made the distance from J. Haisseaa'a house to the Gravelly Run Caurch to be about 234 miles, and that he knew nothing of General Sheridan's orders. Other questions were asked Major Benyaurd of similar Import to those asked by Mr. Sickney, and his replies were in substance the same as before given. In reference to the removal of General Warren, the witness said that Captain Allen brought the order, and told him that Warren was removed, at the same time asking where Warren was conved, at the same time asking where Warren and Griffin were. Major Benyaurd told him where Warren was, and pointed out Griffin's headquarters' flag flying in an opening north of the Ford Road. Major Benyaurd was, and pointed out Griffin's headquarters' flag flying in an opening north of the Ford Road. Major Benyaurd was then questioned by General Hancock with reference to the particular situation of troops, as mentioned by him, to the condition of roads, and so forth, and was asked to mark on the map certain points referred to in his testimony.

The inquiry is to be therough, and in addition to a large number of Federal officers who are yet to be called, Generalis Fitzhuch Lee and W. H. F. Lee, of the Confederate Army, will be summoned as witnesses.

SEEKING TO ANNUL A RAILWAY CHARTER. PROCEEDINGS ON ACCOUNT OF THE INSOLVENCY

Hamilton Ward, as Attorney-General, has rought an action in the Supreme Court, in the name of the people, against the Staten Island Railroad Company, to have it dissolved and its charter annulled. The com plaint states that the company was organized in March, 1853, to carry on a railroad from the eastern shore of Staten Island, between Quarantine and Clifton, to a point on the island opposite Amboy; also to run ferryboats from New-York connecting with the railroad. The company built and operated this line until September, 1872, when it became insolvent, suspended its ordinary business, and surrendered all its rights and privileges to others; it has since fuled to elect directors or officers or to exercise its franchises.

Upon this complaint and upon attidavits an injunction Upon this complaint and upon atlidavits an injunction was obtained restraining alleged creditors of the company from carrying on legal proceedings against it until the suft should be determined. William Broadhurst, one of these creditors, applied before Justice Donoine, In Chambers, to have the injunction so modified as to omit him from its restraining provisions. He sued for \$30,000 damages for injuries suffered from the existing of the boiler of one of the defendant's steambouts. He is an old man, and arged that a specify trial was necessary. Justice Donoine, in denying the motion yesterday, said: "The whole matter may be disposed of so easily by the appointment of a receiver that I do not think the injunction should be modified."

RESULTS OF EATING DISEASED PORK.

In the suit brought by Mrs. Eliza Greifelt ngainst Firgé Brothers, in the Brooklyn City Court, to recover damages for the loss of her husband and her seen filled with trichlites, Dr. William Madden, who attended Mrs. Greifelt and her family during their sick ness, testified at length in regard to the disease o richinosis. He said that the triching were alive when the autopsy of Greffelt's body was made, several days after his death, and that large numbers of them had been developed. The average product of a single trichina was about 1,000. For the defence, Dr. Atwood, of Chicago, testified that trichina was generally round in tenderious, but he had known the parasites to be introduced into the human system through the enting of celery and lettuce. When food was properly cooked trachina could not exist. Dr. Billings, a veteriary surge on, of Boston, stated that he had examined 2,800 swhie, and found that I in 17 centum of training. A ham containing braching smould be found four hours in order to destroy the parasites. Charles Pozzé, one of the determinants, testified that he bought the best pork he could that in the market, smoked his hams carefully, and took cyery precaution.

"I know a victim to tobacco," said a lecturer, "who hasn't tasted food for thirty years." "How do you know he hasn't !" asked an audior. " Because tobacco killed him in 1850," was the reply. A school of poor children, having read in the Bible the demonentions against hypocrites who "strain at a gnat and swallow a camel," were after-wards examined by a benevolent patroness as to their recollections of the chapter. "What, in particular, was the sin of the Pharisees, children!" said the lady. "Aiting camels, my lady," was the prompt reply.

UNITED ACTION.

THE PROHIBITION OF MILITARY MARCH. ING ACROSS THE NIAGARA FOOT. BRIDGE. FEARS THAT THE COM-BINED TREAD WOULD PRECIP-ITATE THE STRUCTURE INTO THE RIVER.

SOME PROOF OF THIS, AND HOW IT IS CAUSED,

Above the suspension foot-bridge which spans the Niagara river below the falls has been placed an iron-plate notice, for-bidding any military or other body of individuals marching across the structure. The bridge is strong enough to carry all who may crowd upon it but the combined power of united apps would sway the elegant wire causeway from its moorings and precipitate it into the river. This illustrates the wonderful power of united and harmonious action, true in the physical world as well as in the material. Combined powers will destroy, while united and harmonious action will successfully resist. To illustrate: If such important parts of the body as the liver and kidneys are in harmonious working order, health is almost certain to be the result. These two organs consitute the workshop of the system. The refining, order. health is almost certain to be the result. These two organs consitute the workshop of the system. The refining, purifying, and life-imparting labor is done by them, and when they harmonize the unhappiness of disease rarely comes. Unfortunately, they do not commonly work in uniton, and as when either the positive or negative pole of the electric battery is decranged the current ceases, so when either the liver or kidneys are out of order the march of disease is sure to weaken the structure.

The question naturally arises, how is this to be avoided? The answer is simple. By keeping both liver and kidneys in perfect order. There have been thousands or remedies for the assistance of the liver, and very many for the kidneys and certainly regulate, relieve and keep in harmony both of these great bodily organs. Warner's safe Kidney and Liver Curo does this infallibly. It furnishes the food which the kidneys and liver require, just as meas provides the material for making blood. Not only this, but it acts as a tonic to the entire system, and diver equire, safe as meas provides the material for making blood. Not only this, but it acts as a tonic to the entire system, and drives away the lassitude which the present eases no often brines. There are thousands of people in all parts of the land to-day who, after hope was nearly gone have had their health restored by this grast modern realedy, and there are thousands of others who are keeping back disease by using it freely. Read the following testimony from Dr. D. W. Barthne:

ease by using it freely. Read the following testimony from Dr. D. W. Bartime:

East Orange, N. J.

GENTLEMEN: Some three months ago I found myself suffering from Bright's Disease—Alouminuris. By the use of a reliable test I found abbumen in the urine, and in some slight degree in a few instances in a coagulated state. I suffered from drops, particularly about the ankles, slight pains about the kidneys, a derangement of digestion, great dryness of the skin, and at times much thirst and of course a gradual failing of attength. This was about the state of things when I cormenced using Watner's Safe Kidney and Laver Care. I foo about six tablespoonfuls every day for one week, when found all my symptoms decidedly improved, and at the end of two weeks it was difficult to detect any trace of albumen. Having improdently taken cold. I had a very slight relapsed some two weeks ago, when I began using the medicine again, and am now as well alse evel.

Life is the most precious thing in all the world, and health is next. To preserve both is mankind's greatest sim, and there is nothing which more effectually does it than Warner's safe Kidney and Liver Cure; Indorect by the press, by sciedlias, and by the people, and for sale by drugscas in all parts of the world. It is the embodiment of united action.

W. W. Sharpe & Co., NEWSPAPER ADVERTISING AGENIS,

Advertisements written, appropriately displayed, and proofs furnished free of charge with estimated cost of insertion in any number of papers,

on application by mail or otherwise.

The leading Daily and Weekly Newspapers of the United States and Canada are kept on file for the accommodation and inspection of Advertisers.

THE ADVANTAGES OF NEWSPAPER ADVERTISING. Messrs. Ivison, Blakeman, Taylor & Co., School Book Publishers, say:

"We have tried almost every sort of medium in advertising, and long ago became convinced that the results were largely in favor of the fresh and varied columns of the Newspaper," "An experience of many years has demonstrated to us the great value and benefit derived from carefully prepared and properly displayed advertise-

ments in well-established, influential newspapers." John Duncan's Sons, Sole Agents for Lea & Perrins' Worcestershire Sauce. Messrs. GILMAN, COLLAMORE & Co., dealers in Fine China and

Glassware, thus express their opinion: "Money may be thrown away in advertisements as easily as in any other way. Success depends upon the selection of proper mediums and PERSISTENCY. The best medium in our judgment is a good Newspaper."

Messrs. Ehrich & Co., the popular Dry Goods firm, say: "Have what the public want. Sell it with a moderate profit. Advertise largely in First-CLASS NEWSPAPERS, and you are bound to do a trade. LET THE NEWSPAPERS BE THE BEST YOU CAN OBTAIN, no matter what the cost. It is but natural that an Advertiser must, in a degree, share in, and thereby gain from, the respect which a reader entertains for an ably-conducted journal.'

THE WHEELER & WILSON SEWING MACHINE COMPANY state: "In no department of business is there probably so much money wasted as in advertising, and in no department are good judgment and experience more requisite. Twenty-five years' experience has clearly demonstrated the superior advantages and economy of newspaper advertising over all other mediums offered for that purpose.'

Messis, Isaac Smith's Son & Co., the well-known Umbrella house, express themselves as follows on the value of Newspaper advertising:

"If what you have to say be strictly true, say it in a good newspaper. Its readers are intelligent, will appreciate a bargain, and of every such customer you make an advertiser. For forty-seven years nine-tenths of our advertising has been done on this plan, and of the whole expenditure, all that we regret is contained in the other tenth."

Mr. J. H. Johnston, Watchmaker and Jeweler, gives his experience as follows:

"During the last Twenty Years I have spent thousands of dollars in advertising in all the old and new-fangled methods which are daily set before persistent advertisers, and have long been satisfied that if a man tells the truth in the Newspapers he is sure to get ample returns for his money. Two or three lines in a large daily has often resulted in returning to me one hundred times the cost.'
